PROFILE

Senior AI student with a rigorous foundation in deep learning, computer vision, and NLP. Converts theory into reliable, end-to-end AI systems by running tight experiments, analyzing results, and managing versioned data and models. Demonstrated leadership in scaling AI knowledge by training 45+ participants for 3 days in advanced machine learning techniques.

EDUCATION

Umm Al-Qura University

Bachelor of Artificial Intelligence

- Current GPA: 3.97 / 4.00

Sep. 2021 – Jun. 2026

Makkah, Saudi Arabia

EXPERIENCE

KAUST Academy

Artificial Intelligence Training Program | Note: Accepted for University of Oxford Summer 2026

Makkah, Saudi Arabia - Oxford, United Kingdom

Jan. 2026 – Ongoing

- Program Overview:** Completed an intensive 80-hour AI training program, covering both Introduction to Artificial Intelligence and Advanced Artificial Intelligence with a focus on Deep Learning and Computer Vision.
- Curriculum:** Machine Learning, Deep Learning, Computer Vision, Transfer Learning, Image Segmentation, Object Detection, and Data Augmentation with hands-on labs.
- Stack:** PyTorch, OpenCV, CNNs, Transfer Learning, Image Processing | [Certificates](#)

The Education University of Hong Kong

Exchange Student (Summer Program)

Jul. 2025 – Aug. 2025

Hong Kong, China

- Intensive Study (DL/CV/Object Detection):** Hands-on DL for CV program with end-to-end detection workflows; covered CNNs, transfer learning, data annotation, YOLO training/inference, and evaluation (mAP, CER) via labs.
- Project SmartGrader:** Engineered a prototype that takes scanned handwritten exam papers and turns them into graded results with short reasons and a simple review page; uses YOLOv8 to find sections, EasyOCR + TrOCR to read handwriting, and an LLM to score by rubric, with options to edit and export.
- Stack:** PyTorch, YOLOv8, OCR, LLM prompting, experiment tracking | [Certificate](#)

Deep Scan Technologies | Company

AI Intern

Mar. 2025 – Jun. 2025

Riyadh, Saudi Arabia

- Hotel Voice Assistant (AI Agent):** Built a voice-driven reservation system using N8N and ElevenLabs. Designed workflows that allow users to book, cancel, or reschedule stays, with N8N orchestrating the logic to process intents and update the booking data in real-time.
- Speech Data Work:** Assembled a large Arabic speech corpus from public sources; normalized basic metadata and organized it for training Nabrah (Saudi Voice Dialect).
- Stack:** PyTorch, N8N, ElevenLabs, Whisper, GPT, Pandas, Git/GitHub, Kaggle

PROJECTS

Saudi Dialect End-of-Utterance (EOU) Detection | BERT, NLP, SaudiBERT | Model

Jun. 2026

- Built AI system detecting end-of-utterance from text in Saudi dialect for voice agents. Developed hybrid dataset combining public Saudi dialect data with 2136 ALLaM-generated synthetic examples for edge cases.
- Fine-tuned SaudiBERT model achieving 77.47% F1 score on held-out test set.
- [Live Demo](#) | [Dataset](#)

SHARES: Silent Help Arabic Emergency Lip Reading System | PyTorch, R(2+1)D CNN | GitHub

Dec. 2024 – Feb. 2025

- Built real-time Arabic lip-reading system using R(2+1)D CNN to recognize 10 emergency-related words from silent mouth movements, achieving 76% test accuracy on custom dataset.
- Designed spatio-temporal feature extraction pipeline for visual-only input; provides assistive technology for mute individuals and emergency communication in noisy environments.

Arabic Text Correction (NLP) | PyTorch, AraT5, POS Tagging | GitHub

Dec. 2024 – Feb. 2025

- Fine-tuned AraT5 model on QALB-2014 dataset for grammatical error detection and correction in Arabic, addressing challenges in morphology and syntax.
- Implemented AraT5 + POS tagging approach to enhance model understanding of sentence structure, achieving 81.04 F0.5 score.

SKILLS

Technical Skills : Machine Learning, Deep Learning, Computer Vision, NLP

Data Science & AI Frameworks : NumPy, Pandas, PyTorch, Scikit-Learn, Matplotlib

Programming & Tools : Python, Java, Git, GitHub, N8N, OpenCV

Soft Skills : Problem-Solving, Presentation, Teamwork, Leadership, Adaptability, Creativity

Languages : Arabic, English
